

January 31,2012

Hi

The Olds Indoor Cycling Centre continues to pull great numbers and we couldn't be happier. Sunday was another fantastic day at the track. In the morning we saw 20+ young riders take advantage of the training program provided by coaches Louis Chartrain and Brian Bullivant.....thanks guys! We also had 50+ riders join us for gate practice. The afternoon brought some very exciting races in all classes and the great action in the open class was worth the drive alone.

The momentum and excitement seems to be building and we are starting to see some Olds and community riders join in the fun. The future looks bright and we are already dreaming / planning for next season. With the increasing numbers however, comes increased pressure on our few awesome volunteers. Thanks to all volunteers that have come forward over the past couple weeks and made the race days possible. My worry is that we may burn out those few people who actively participate. Although the Indoor numbers have been great, we are in a unique situation, as it is an Alberta run project and we do not have a club membership in which we can pull volunteers. I am making the plea to all Alberta Club members to offer your hand volunteering at the Indoor whenever possible. Please email Jonas Tremel (Track President) jtremel@milleniaresource.com or myself d.tucher@shaw.ca in advance, should you be able to volunteer in any role (Registration, concession, or track).

We are also actively pursuing 1-2 Indoor representatives from each of the Alberta clubs. Our hope is that by having club representatives, we can better communicate ideas and thoughts and organize for the up-coming Provincial at the end of March. We would like to set a dead line for getting club representation for the AICC, to the ABA meeting being held February 11th. If interested in

volunteering for these positions, please contact your club presidents, who can name their reps at the meeting. The first Provincial of the year will come quickly and we would like to be ahead of the game.

If you have not yet been out to the track please do not hesitate, as it is a great facility and the racing has been absolutely awesome.

See u Soon

Dale Tuchscherer
